

MATT IRVIN

PRESIDENT · SKYVIEW RESTORATION GROUP

I've spent more than 25 years in roofing, construction and storm restoration. I founded **RestoreMasters** and grew it into a national restoration company that did **$113 million in its best year** before it was acquired. Today at SkyView, I work with **multiple licensed, insured contractors**, so every property gets the right team for the job.

I've worked every side of the insurance world and seen almost every kind of loss. If you have a question about your roof, your building or the repair process, there's a good chance I've seen it before.
